3 March 2010

Dear Mr. Oliu Creus,

We are delighted to inform you that Banco Sabadell, S.A has been publicly praised as a leader in sustainability reporting by a group of international investors.

As you will see from the attached press release, an investor coalition of the Principles for Responsible Investment has publicly released an analysis of companies that are falling behind with respect to the UN Global Compact's "Communication on Progress" (COP) policy – as well as companies whose COPs are deemed exemplary, or "Notable".

Banco Sabadell, S.A is among the 44 companies praised by the investor coalition for its high-quality sustainability report.

We wish to congratulate you on this important recognition. Your leadership within the UN Global Compact is greatly appreciated – and serves as a model for companies in all regions of the world.

We hope that you will continue your strong engagement in the UN Global Compact. Again, many congratulations.

Sincerely,

A handwritten signature in black ink, appearing to read "Georg Kell".

Georg Kell
Executive Director
UN Global Compact Office
